

## FALL OF SALONIKI REPORTED; UNITED STATES SENDS ARMORED CRUISERS

## TENNESSEE AND MONTANA EXPECTED TO LEAVE FOR TURKISH WATERS WITHIN 48 HOURS

## Revenue Cutter Unalga Will be Turned Back From Suez and Ordered to the Turkish Coast Where She Will Arrive Ahead of Cruisers—Will Carry Crew of Seventy Men.

LONDON, Nov. 8.—Judging from the dispatches tonight Constantinople virtually has abandoned hope of the ability of the Turks to offer serious resistance at the Tchatalja line and is viewing the necessity of calling the city's manhood to the defense of the city itself. If this is the case the end of the war can not be far distant. The Greeks today achieved the crowning feat of their campaign by occupying Salonika.

The Greeks still have to capture Janina, Adrianople and Scutari but it is reported that the two principal forts outside of Adrianople have been captured. A dispatch to the Vienna Reichspost says pourparlers for the surrender of Adrianople have begun. With the approach of the end of the war diplomatic difficulties are becoming formidable. They are taking the form of a conflict between the triple alliance and the triple entente which may prove almost an unbearable strain on the European diplomacy. The situation is so grave that a special meeting of the British cabinet was summoned today to hear the views of Sir Edward Grey, the foreign minister, as a result of his recent conference with all the interested European representatives in London and also to prepare for a statement on the subject which Premier Asquith is to make at the mayor's banquet at the Guild Hall tomorrow night.

There is reason to believe that Austria has made it clear to Serbia and to the powers that she will never consent to Serbia occupying Albania or ports on the Adriatic. It is reported that the powers recently have approached the Balkan allies with a view to ascertaining on what terms they were prepared to accept peace. It is understood that the allies were not disposed to commit themselves and insisted upon direct negotiations with Turkey. It is believed the only definite outcome of the European pourparlers thus far is an understanding that the Turks shall not be driven from Constantinople. One result of the conflict on the powers over the division of the spoils undoubtedly has been to strengthen Turkey's determination not to appeal to the allies but to resist to the end.

It is asserted in Vienna that the ministers of Germany and Italy in Belgrade have been instructed to declare that the triple alliance would regard the appearance of Serbia on the Adriatic as contrary to their interests. The general belief is that the conflicting interests of the powers will necessitate the calling of a European conference to endeavor to arrange a compromise agreement.

**Issues Appeal for Holy War.**  
Constantinople, Nov. 8.—The Shiek-ul-Islam, head of the Heiracy in Turkey today issued the following appeal for a holy war in a manifesto addressed to the Ulemas and Hodkass:

"With a view to exciting and encouraging the soldiers of the enemies who surround us, their priests, cross in hand, are working in the ranks of the army. It is not fitting that our Ulemas should neglect the accomplishment of a similar duty.

"In order that the victory and glory promised by the Almighty may be granted without delay to the Ottoman arm it is necessary that the venerable Ulemas organize a Jihad. Such a holy war, has become an obligation if the condition of the Ottoman soldiers, who are all heroes, is to be strengthened.

"Ulemas who feel that they possess the aptitude and strength to participate in this important task are invited to present themselves immediately at the Shiek-ul-Islam, which will send those selected to the army."

There have been rumors for a day or two that the ministry was unstable owing to its request for mediation by the European powers, but the newspapers say this situation has given way before the demand of the army and of public opinion that the war be continued. The common danger seems to have united all parties. This is shown by the fervid outburst of the newspapers of all political shades urging a fight to a finish.

**Will Draft All Over 19 for War.**  
The explanation of this new born unanimity may be found in the suggestion to one of the high government officials that if even it is found impossible to hold the lines at Tchatalja other defenses are possible before the enemy can reach this city. Every male who has reached the age of 19 years will be expected to be ready to perform his share in the duty of protecting the capital.

According to Turkish official reports, massulman villages in the Palass and Kirdjare districts have been burned by Bulgarian troops, and Daoud and Topuku and surrounding villages were also destroyed.

An official despatch received from the Vail of Saloniki, dated today, says that two squadrons of Bulgarian cavalry Thursday attacked the troops guarding the railway station at Orlu three hours journey from Adrianople, but that the Bulgars were repulsed.

**Wounded Come From Front.**  
Pitiful scenes continue to be witnessed. It is significant that most of the train loads of wounded from the front. It is significant that most of these men are slightly injured which would indicate that the badly wounded have small chance of being picked up. Almost without exception the wounded are on the verge of collapse from exhaustion. Many have been without attention for days, and a majority of them without food or water for 24 hours.

The hospitals already are overcrowded and symptoms resembling cholera have appeared. Those suspected of having the disease are isolated in a special shed. If the dread scourge should come to Constantinople, where already there is so much distress and suffering among the wounded and the refugees the consequences are too horrible to contemplate.

It is impossible even roughly to estimate the number of refugees in the capital. There are fresh arrivals each day. Every mosque in Stambul and suburbs is crowded. Families from various villages and districts are striving as much as possible to keep together. All the refugees seem resigned to their fate and anxious to go to Asia Minor, where long strings of caravans with their children and household effects in that give the appearance of the exodus of the Turkish race from Europe.

**May Send Revenue Cutter.**  
Washington, Nov. 8.—While active preparations are being made to get the armored cruisers Tennessee and Montana headed towards Turkish waters within 48 hours to protect Americans, the revenue cutter Unalga, now at Port Said, probably will be turned back from Suez and ordered to rush to the Turkish coast where after a three and one-half day sail she could arrive a full fortnight ahead of the cruisers.

Acting Secretary of State Huntington Wilson tonight is considering the advisability of using the Unalga and if he makes the request she will set out tomorrow to extend such relief as is possible pending the arrival of her bigger sisters.

The Unalga carries a crew of 70 men. The Tennessee, the flagship of Rear-Admiral Knight who will command the expedition and the Montana each will carry 700 sailors as well as one company of marines each. A special train now is taking 400 blue jackets from the Norfolk navy yard and other stations on the coast to fill out the ships crew.

Save for the little gunboat Scorpion station ship at Constantinople which scarcely counts as a warship; these five cruisers will be the first American national vessels to pass through the famous straits since the old Hartford of civil war fame was allowed to anchor in front of Constantinople by special decree of the Sultan to the no small dismay and alarm of certain of the European powers which vigorously protested against the allowance of a privilege to the Yankee ship which was denied to the greatest powers of Europe.

**Kamel Pasha Pathetic Figure.**  
London, Nov. 8.—A despatch to the Daily News from Constantinople by wireless from the steamer Principessa Maria, says: "As a result of the crash of the Ottoman world, the most pathetic figure probably is Kamel Pasha the grand vizier, an old man, striving to restore order from the chaos which was none of his making. He alone appears to retain a vestige of authority.

"The anxiety which prevails concerns the interregnum which would elapse between the transfer of the government to Brusa, Asiatic Turkey and the entry of the Bulgarians into Constantinople for no one longer supposes that they will make peace anywhere else. It is chiefly for this emergency that preparations have been made to protect Europeans. Their transport to steamers hired for their convenience will be effected under cover of strong landing parties from the warships and boats with maxima.

port on the sea of Marmora south-west of the Tchatalja line, apparently are authentic. Many of the inhabitants are said to have been massacred and the town almost burned out.

The population of Silivri was mostly Greek. The authorities are acting under a plan arranged by the foreign office and the foreign consulates also have devised arrangements to protect their subjects. Two British ships are lying in the harbor ready to embark British subjects and the people of other countries have similarly been provided for.

**Turks and Bulgars Rest.**  
Constantinople, Nov. 7.—(Via Kustendje, Rumania). Both Turks and Bulgars apparently are resting for a few days in order to recuperate replenish supplies and await reinforcements.

The Turks are utilizing the breathing spell to prepare for the final effort to restrain the Bulgars at the Tchatalja line. Large numbers of members of the first reserves are arriving from the Anatolian provinces and the government is drawing up the divisions at Ezerum and Balbur Asiatic Turkey which previously had not been touched. Several batteries of artillery have been sent to Tchatalja.

**May March Into Constantinople.**  
Sofia, Nov. 8.—News of the retreat of the Turkish army on Constantinople is expected hourly. The feeling at Bulgarian headquarters favors the Bulgarian army marching into Constantinople accompanied by the Servians operating in Thrace and a Greek force which will land in the Gulf of Xeros near the Dardanelles.

The Serbian and Greek crown princes probably will be present and the cross carried in triumph into the mosque of St. Sophia.

Premier Guchoff in a newspaper interview says the allies have agreed in a general way on the settlement of territorial questions, but their policy after the liberation of Macedonia has not yet been decided in all its details.

Common action between the allies he declares, will not cease with the war and Europe may count upon seeing a most cordial union between the states.

The premier says he anticipates no friendly action from Rumania. He insists that the allies will submit to no coercion from the powers, but on the contrary would rather fight to the bitter end.

Athens, Greece, Nov. 8.—The Boreo capital was illuminated this evening in celebration of the fall of the Turkish stronghold of Saloniki. Services of praise were held in the various churches.

Details of the battle of Yenidje received here today from Volo, show that 30,000 Turkish troops were engaged. Fighting lasted throughout the morning and ended in favor of the Greeks, two divisions of whom attacked the Turks in the rear and gave a decisive turn to the battle.

**Report Fall of Salonika.**  
London, Nov. 9.—An uncensored dispatch received by the Daily Chronicle from Constantinople says: "Friday—Salonika has been occupied by the Greek troops. Their approach was attended by awful scenes.

"Before the Greeks entered the town the elements of disorder broke loose and a terrible massacre of the non-moslem population took place. Shooting and looting were general. "When the Greeks took possession they imprisoned all of Pasha's officials and Turkish officers. The Turks in captivity in Salonika number 27,000."

**Powers at Standstill.**  
Constantinople, Nov. 9.—There has been no development in the direction of mediation by the powers in the war in the Balkans, according to information here. France, Great Britain and Russia are endeavoring to obtain the adherence of the triple alliance, Germany, Austria and Italy, to a policy of "disinterestedness" before undertaking mediation, but their success is very doubtful. It appears that France, Russia and Great Britain side with the Balkan allies, while Germany, Austria and Italy lean toward Turkey. The upshot of this situation is awaited here with some concern.

**King Receives News of Capture.**  
Athens, Nov. 8.—King George received Crown Prince Constantine's telegram announcing the fall of Salonika at Ghent, and immediately started for the captured city by special train. A solemn Te Deum was celebrated in the cathedral there and the streets of the capital were filled with people singing, waving flags and cheering for the crown prince and the army.

Minister of Justice Ractavian has been appointed governor of Salonika, and will start for that city tomorrow.

**Celebrate Victory.**  
Athens, Nov. 8.—At half past one o'clock this morning no official details concerning the fall of Salonika have been received here. Nevertheless celebration of the event is proceeding. The city is illuminated and a procession headed by the mayor has gone to congratulate the premier on the Greek victory.

**Adrianople Still Holds Out.**  
Sofia, Nov. 8.—It is reported here that the Bulgarian army has reached Derkas, situated on the northern end of the Tchatalja line and about two and a half miles from the shore of the Black Sea.

Adrianople is still holding out. It is believed the bombardment there has been suspended temporarily.

## RE-ORGANIZATION OF SENATE ASSURED

## DEMOCRATS CERTAIN TO BE IN CONTROL OF SENATE

Republicans Number 41 and Democrats 48—Seven Seats Are Still Doubtful—Political Affiliation of Progressives Will be Tested.

WASHINGTON, Nov. 8.—"The re-organization of the senate by the Democrats on the fourth of March is assured," said Senator Hoke Smith, of Georgia, today, in summing up the status of the senate after March 4th, as a result of the recent election.

Senator Smith was among the first of the Democratic senators to return to Washington and he spoke with assurance due largely to his familiarity with the situation on account of his connection with the senatorial branch of the campaign work. He spent a month in Chicago with Senator Keed of Missouri, looking after the legislatures in the various states.

"We have thirty Democrats who holdover and five who already have been elected, making 35," the senator said. "We have Democrats from Georgia, Texas, Kansas, Arkansas, Montana, Oklahoma, North and South Carolina, and two from Colorado, who have been elected in the primaries. The Democrats undoubtedly have carried the legislatures of New Jersey and Delaware which insures Democratic senators from each of those states. Advances from Nevada and Oregon clearly indicate the election of Democratic candidates for the senate. This would give 49 Democrats or a positive majority of the senate."

Mr. Smith was inclined to make additional claims upon the states which are considered doubtful. He said that according to his advice, the Democrats will have a majority of the legislature of Tennessee which would insure a Democratic senator from that state. He also counted on further Democratic accessions from Illinois, and from some of the other states which are still in doubt.

"We can rely safely on 50 Democrats in the next senate," he declared.

Senator Smith's summary of Democratic control in the senate is substantially in accord with the general view taken at the senate wing of the capital. In other quarters an impartial survey of the returns gives totals up to the present time as follows:

Democrats	48
Republicans	41
Doubtful	7

Total membership 96  
The seven seats still classed as doubtful are the two from Illinois, one each from Michigan, Oregon, South Dakota, Tennessee and Wyoming.

Without any of these seven doubtful seats the present assured Democratic strength of 48 is exactly half of the total membership and is sufficient with the vote of Vice-President Marshall on a tie, to control the senate.

The test as to the political affiliation of the Progressives in the senate will come soon after the convening of congress on the first Monday in December.

"If I could have my way," said Senator Oliver of Pennsylvania, one of the foremost of the standpatters today, "I would determine the question at the earliest moment. With the vice-president no longer with us, it will become imperative to elect a president pro tempore of the senate as soon as we convene. As it generally known, the Progressives refuse to support Senator Gallinger, who was the caucus nominee for president pro tempore of the last session. I would call another caucus to name a candidate for this office, and would make his support a test of party loyalty on the part of senators claiming to be Republican."

If the course suggested by Mr. Oliver should be pursued it might result in the early recognition of a third party in the senate. It is claimed, however, by Senator Gallinger's friends that the Progressive opposition to him had largely died away before the close of the last session. The Democratic senators are most anxious to obtain such a majority of their own membership in the senate as to entirely avoid the necessity of any dependence upon the Progressives after March 4th.

**NOTED REVOLUTIONIST KILLED.**  
Tegucigalpa, Honduras, Nov. 8.—General Jose Maria Valladares, the noted revolutionist who in years past has caused much trouble to the governments of Honduras and Nicaragua, and who especially halted Americans, has fomented his last uprising. He was killed yesterday by government troops in a skirmish near Ojojoja, his native town.

The last uprising of Valladares was short lived. He started yesterday near Ojojoja and immediately came in contact with the government troops in a short, sharp skirmish, in which he was shot. His death ended the outbreak.

**ASKS ROOSEVELT'S AID.**  
Washington, Nov. 8.—Former United States Senator Henry W. Blair of New Hampshire today made public a letter written by himself as president of the anti-trust term league to Theodore Roosevelt. The letter requests Roosevelt to "solemnly renounce his future candidacy for the presidency, and to give his powerful support" to the project to limit by constitutional amendment the tenure of the presidency to two terms of four years each.

## PLAN LITTLE WORK DURING SESSION

## SHORT SESSION OF CONGRESS NOT EXPECTED TO ENACT MUCH LEGISLATION

Usual Appropriation Bills and Committee Work Will Occupy Attention of Members of House During Session to be Called December 2, 1912.

WASHINGTON, Nov. 8.—Speaker Champ Clark is expected to reach Washington within the next ten days or two weeks, in time to take up the details of legislation in the short session of congress which will begin three weeks from next Monday.

Chairman Underwood, of the house committee and ways and means, is not expected until toward the end of the month.

Comparatively little legislation beyond the passage of the usual appropriation bills is expected to be enacted during the short session. The majority of the members of the house committee on appropriations are now on the way to Panama under the leadership of Chairman Fitzgerald, with a view of making an especial investigation as to the needs of the work on the canal and the clerks of the committee are busily engaged on the frame-work of the various appropriation measures.

Most of the estimates from the executive departments have been received and many of the bills are well under way. The legislative, executive and judicial and the District of Columbia bills will be in shape for committee work when congress meets and these probably will be the first of the supply measures to be presented to the house.

It is expected the appropriation for the isthmian canal which will be made at the next session, will be the last to be required for the construction of that work. Up to date the appropriations have aggregated \$322,541,468, and as the limit was fixed at \$375,200,000, about \$52,658,531 still will be required to complete the work, providing the full amount of the estimate becomes necessary. In addition further appropriation must be made for the continuation of the work on the canal fortifications, for which less than \$6,000,000 of the requisite \$14,000,000 has been provided.

The calendars of the two houses contain a number of general measures left over from the last session but as a rule Democratic senators and members show a disinclination to enter upon much general legislation in view of the early prospects of their complete control of both houses of congress as well as the presidency.

## WILSON INTENDS TO FOLLOW OUT HIS "LISTENING POLICY"

Will Make no Announcements of Important Matters of State for Several Weeks.

Princeton, N. J., Nov. 8.—President-elect Woodrow Wilson intends to follow out his "listening policy" for several weeks before making any announcements of important matters of state.

The president-elect said tonight he had decided to go away next week on a vacation of three or four weeks during which time he would be out of the reach of political callers.

An incident of the day at the Wilson home was the parting of the president-elect with Captain "Bill" McDonald, Texas ranger and body guard of the last few weeks.

The captain left for Kewana, Tex., near Port Worth, where he has a big ranch.

The president elect took a five mile walk again today around the Princeton battlefield of revolutionary days.

Several telegrams came today, one of them from Eugene Chaffin, the prohibition candidate for the presidency. He wired his congratulations and added:

"I move that we make it be unanimous."

There is a citizenship above party and an old personal friendship matters regarding which the expression of good will with the assurance of my earnest support for all good which you do as president of our great country."

**WOULD HELP FARMERS.**  
New Orleans, Nov. 8.—Congressman Joseph E. Ransdell, United States senator-elect from Louisiana, in a speech before the farmers' national congress today, said that the matters regarding which farmers should be chiefly active were:

First, their own health and happiness.

Second, organization and co-operation in making and marketing their crops.

Third, cheaper money for operating their farms.

## PROGRESSIVES HOLD BALANCE OF POWER

## DEMOCRATS LACK SIX OF MAJORITY IN NEW STATE LEGISLATURE

Progressives and Republicans Combined Can Total One More Than the 103 Votes Necessary to Control Election of Cullom's Successor.

CHICAGO, Nov. 8.—Within a day or two Governor Deneen will decide whether he will call an extra session of the state legislature to fill the United States senatorial vacancy and pass apportionment bills.

The governor discussed the situation with a number of friends here today and it is understood that he was ready to call a special session if he could have the assurance that the Republicans would work together. If a special session is called, it is understood the opening date will be Tuesday, Nov. 19.

It is the governor's contention that the Republican party should have the right to select the successor of William Lorimer and to re-apportion the state into congressional and senatorial districts in a manner satisfactory to the party.

Lawrence V. Sherman and Albert J. Hopkins are candidates for the senate in case of a special session. Governor Deneen has said he will not permit his name to go before the legislature.

Senator Cullom, who was here today, said he had advised the governor to call a special session. CHICAGO, NOV. 8.—Progressives will hold the balance of power in the new Illinois legislature, complete returns received today showing that the Democrats will lack six of a majority on joint ballot while there are just enough Progressives and Republicans combined to make one more than the 103 votes necessary to elect a successor to Shelby M. Cullom as United States senator. The joint sessions will muster 97 Democrats, 78 Republicans, 26 Progressives and three Socialists.

While this complexion of the next general assembly will make necessary some sort of a bi-partisan or perhaps tri-partisan alliance to accomplish an election, it is entirely centered in the gossip that the present Republican administration of the state was contemplating a special session of the old legislature to elect a successor to William Lorimer.

Unless some such step is taken the new general assembly backed by a Democratic administration in Springfield, will confront the task of electing two federal senators.

Conjecture therefore settled about the identity of the possible allies. Whether the Democratic-Republican alliances that have figured so prominently in former Illinois politics would permit the Democrats to elect James Hamilton Lewis in return for the short term of three years of L. Y. Sherman, or, on the other hand whether the Democrats would abandon the old order of things and join the Progressives in electing Lewis, Democrat and either Frank Funk, defeated candidate for governor, on the Progressive ticket, Medill McCormick, the Progressive Western leader, or Charles E. Merriam, was the point of interest.

Certain members of the Republican faction of the legislature, who in former years were interested in alliances for mutual benefit of the parties allied, arrived in Chicago yesterday for conferences with a view of sizing up the forthcoming situation. It was learned that these conferences thus far have been with Democratic members of the legislature who also were interested in former years in bi-partisan combinations.

Political experts here profess to see in this a possibility of the election of Lewis and Sherman.

**READING OF LETTERS CONTINUE.**  
Indianapolis, Ind., Nov. 8.—Reading of letters alleged to have been written by members of the iron workers union, was continued today in the trial of the accused dynamite conspirators.

After the loss of life at the Los Angeles explosion and during the six months before the arrest of the dynamiters, McNamara wrote letters to members of the union cautioning them to "be careful as to the kind of letters they sent to headquarters."

It was charged, in was charged in connection with the reading of a letter from McNamara to Murray L. Pennell, Springfield, Ill., as follows: "I am surprised at the kind of letter you write. Hereafter be more careful, for the Lord only knows who reads these letters."

Other letters of caution and warning were read.

**REPORT OF PENSION BUREAU.**  
Washington, Nov. 8.—There are now on the government's pension roll 538,000 soldiers and sailors, 321,932 dependents and widows and 362 army nurses, according to the annual report of the pension bureau made public today. These include 47,263 survivors of the civil war and 238 widows of the war of 1812.

To provide for all of them the pension bill, \$151,558,191 has been appropriated—a decrease of \$3,276,096 from last year.

**NEWS PRINT PAPER REPORT.**  
Washington, Nov. 8.—Stocks of news print paper on hand at the end of September, as reported to the commission, were 47,231 tons, an increase of 1,243 tons over August, and a decrease of 1,889 from September, 1911. Production in September was 97,486 tons, a decrease of 8,494 tons. Shipments were 95,370 tons, a decrease of 5,382 tons.

## JOHNSON OCCUPYING CELL IN COUNTY JAIL

## FAILS TO FURNISH \$30,000 BOND AND GOES TO COOK COUNTY PRISON

## Pugilist Loses His "Golden Smile" As He is Led From the Federal Building Hand Cuffed to Deputy Marshall.

CHICAGO, Nov. 8.—Jack Johnson, champion heavy weight pugilist of the world, tonight occupies a cell in the county jail, due to his failure to furnish a \$30,000 bond for his release on a charge of violating the Mann act.

No longer is Johnson's "golden smile," famous all around the world, visible. His hard, losing fight raged all afternoon and evening in Judge Landis court, and dejected him greatly.

As he left the federal building handcuffed to Deputy Marshall Edward Northrop, after a futile plea to not have his wrist manacled, his shoulders were stooped and his head hung down. He said nothing.

In the course of his extended battle for bond Johnson shed tears, pleaded, offered cash bond in almost any amount, and employed two attorneys, David Bachrach and Edward Morris, in an effort to obtain his release. Three prospective bondsmen failed to qualify, and one of them, Albert C. Jones, was sent to jail, after he had failed to obtain a bond of \$10,000 for his appearance in court next Monday to answer a charge of contempt, which was lodged against him by the court when he attempted to schedule property said to belong to his wife, Tony May, another prospective bondsman, was ordered out of the court because he gave answers to questions which the court considered untruthful.

"Give me bond in any amount, but for goodness sake keep me out of jail," Johnson pleaded with his attorneys.

Both District Attorney Wilkerson and Judge Landis refused to consider a cash bond.

"An unparalleled attempt to swindle this court by offering unqualified bondsmen has been made," said Judge Landis, "and I will not consider a cash bond."

Mr. Wilkerson said he understood that Johnson intended to leave this country on November 20, if he obtained his release. The crime with which Johnson is charged is not extraditable.

After Johnson learned that only surety by property owners would be accepted he made a plea for extension of time. First he asked at the close of the day that he be permitted to present new bondsmen at a night session which the court was holding for the consideration of another case.

Unable to obtain his release at the night session his attorneys tried to have the time extended until tomorrow. Johnson thought that he would be able to obtain bond, which his attorneys might not secure. But the court was not inclined to extend its leniency any further.

Coincidentally with the incarceration of Johnson, Mrs. Catherine Dorsey, with whom Lucille, Cameron is said to have lived three weeks while in Chicago, and whom the federal authorities have sought as a witness against Johnson, was arrested and placed in jail.

To add further to the negro's troubles, it was reported today that the federal investigation of Johnson's alleged immoral practices has only begun. Several other charges against him are to be investigated by the grand jury, it is said.

District Attorney Wilkerson tonight said he intended to put Johnson on trial as soon as possible. The case probably will be called for plea next week.

**Wants Cake of Champagne.**  
At the jail door a newspaper photographer attempted to take a flashlight picture of Johnson and the negro knocked him down with a heavy cane.

"You can't take a picture of me," shouted Johnson.

Deputy marshals interfered and the negro was hurried into the jail. There he was forced to remove all of his clothing, which was subjected to a careful search. Johnson was assigned to a cell in an upper tier. Immediately he objected to the location. He was told he would have to take what was given him in jail.

"I want a dozen candles, so I can have more light, a box of cigars and a case of champagne," Johnson demanded.

"You can't have them," he was told.

"You're not as accommodating as they were in San Francisco," Johnson replied. "I got everything I wanted there."

Finally the negro asked for a bottle of milk, and this was given him.

**PLANS FOR INAUGURATION.**  
Washington, Nov. 8.—Local Democratic circles are already actively discussing plans for the inauguration parade, inauguration ball and inauguration ceremonies generally on March 4th next. Chairman McCombs, of the Democratic national committee, will designate the chairman of the Washington committee to take charge of the arrangements and the national chairman usually selects the grand marshal of the inauguration parade.

The names of several prominent army officers, active and retired, have been mentioned in connection with the post of grand marshal.

CHICAGO, NOV. 8.—Although no games are scheduled for tomorrow which are likely to cause any change in the eastern and western championship races, several of interest are to be played.

In the west the University of Chicago and Northwestern university teams, old rivals, but both of them are out of the championship running, will meet on Marshall field.

Illinois players took their final practice today and accompanied by 1,000 supporters, will leave tomorrow for Lafayette where they meet Purdue. A hard battle between the two is anticipated. Snell probably will be at right half in the place of Ohlen, the veteran. It has been seven years since Purdue defeated Illinois, but this year the Illinois squad is on the short end of the odds.

For the first time in several years Indiana and Iowa will clash tomorrow at Indianapolis. Both teams predict victory for themselves.

Drake and Missouri will meet in Des Moines.

The biggest game of the day in the east will be between Pennsylvania and Michigan. Both teams are lighter this year than they have been in the past and a fast game is expected.

Football games scheduled for Saturday are:

Illinois-Purdue.  
Chicago-Northwestern.  
Indiana-Iowa.  
Wisconsin-Arkansas.  
Pennsylvania-Michigan.  
Ames-Cornell.  
Yale-Brown.  
Ripon-Beloit.  
Drake-Missouri.  
Nebraska-Doane.  
St. Louis-Notre Dame.  
Monmouth-Knox.  
Ohio State-Oberlin.  
Case-Kenyon.  
DePauw-Rose Poly.  
Webster-Earlham.  
Ohio Wesleyan-Miami.  
Lafayette-Syracuse.  
Harvard-Vanderbilt.  
Princeton-New York University.

PHILADELPHIA, NOV. 8.—Leo Houck of Lancaster, Pa., outpointed Dave Smith, the Australian middleweight champion, in a six-round bout here tonight. In the last two rounds Houck fairly smothered the Australian with straight left jabs.

ST. LOUIS, NOV. 8.—A long signal drill in which the team showed more speed than at any time this season, ended training for the St. Louis university football eleven in preparation for the game with Notre Dame here tomorrow. The Notre Dame team arrived tonight.

PHILADELPHIA, Nov. 8.—Perfect weather today helped brace the members of the University of Pennsylvania and the University of Michigan football squads and added zest to their final preparations for tomorrow's game. Coach Yost gave his men a severe drill at Wayne while the Pennsylvania team held its final drill at White Marsh.

NEW HAVEN, CONN., Nov. 8.—Yale plays Brown tomorrow on Yale field, it being the last home game but one for the Blue. The Yale team did not play last Saturday on account of the death of York, the right guard and as practice for several days was suspended, there is some apprehension on the part of the Eli followers that the team may have been set back in its development.

MUSICAL COMEDY AT THE GRAND.

For the second time the Bassford & Shaffer Musical Comedy company produced "Winning a Mother in Law" last night at the Grand opera house.

At the rise of the curtain at seven o'clock the company was greeted with another full capacity house. In fact the I. R. O. sign was in full display at 8 p. m.

Hundreds were turned away.

## BOOSTER CLUB HOLDS SOCIAL

Enthusiastic Meeting at Conservatory Hall Friday Evening Largely Attended.

More than one hundred young men of the city were present at the open meeting of the Young Men's Booster club held in Conservatory hall Friday evening. Several instructive talks were made and a spirit of pronounced enthusiasm prevailed at the meeting.

When the meeting was called to order President Dunlap called upon Paul B. Fritchey, secretary of the Business Men's association to give an outline of the purpose of the meeting. Mr. Fritchey explained that the meeting was for the purpose of getting together the members of the club and young men of the city who are not members for a good social time and to explain the purposes for which the club was organized. He was followed by Messrs. Bernard Gause, Frank Byrns, Huggs, Green, F. W. Bender and H. H. Baneroff, who gave addresses teeming with valuable suggestions to the young men. They advanced the idea that the members of the club should have something in mind to do, be it ever so small, and to do it before they started on something else. Some explained that although their fathers and grandfathers had excellent opportunities, there are still opportunities for the young men of the city and although they may not be apparent now, it is a certainty that they will appear and that for success the young men must be doers, so that when opportunity does present itself they will be able to meet it and do their part if conditions arise. Short talks were also made by A. E. Boomhauer of St. Louis, William Batz, P. J. Fox, Fred Seibert and J. W. Chipchase.

Before the close of the meeting the club passed a motion that the members make a special effort to assist the Business Men's association in their campaign during the coming week. During the evening cigars were passed around and refreshments consisting of gingerbread and cider were served.

President Dunlap mentioned the fact that at the first meeting twenty-two signed as members of the club and at the next meeting the membership was increased to sixty-five. Since that meeting the following members were received: O. A. Adkinson, Cyrus Andrews, Paul Breckon, H. L. Caldwell John W. Chipchase, Edward M. Dunlap, Harry A. Frankel, Harry A. Frye, R. W. Fore, M. R. Gates, Hugh P. Green, E. M. Johnston, A. C. Metcalf, R. A. Newsome, Boyd S. Pond, E. G. Roach, R. Y. Rowe, J. E. Scott, Joseph F. Sehr, Claude B. Vail, Robert R. Wait and U. D. Wilson.

FAST BOUT GOES TO DRAW.  
Kansas City, Nov. 8.—Harry Dell of San Francisco and Tommy Dixon of Kansas City, feather-weights boxed ten rounds to a draw here tonight. The bout was a fast one but honors were even in each round.

BUCHANAN IS WINNER IN ORATORICAL CONTEST.

Bloomington, Ill., Nov. 8.—Buchanan of Monmouth was awarded first in the inter-collegiate oratorical contest at Eureka tonight. Lienbaugh of Knox was second and Gordon of Eureka third.

On account of repeated attempts to convict him of professionalism, Calhoun of Wesleyan, withdrew.

MEETING OF COMMITTEE HAS BEEN POSTPONED.  
New York, Nov. 8.—The meeting of the Republican national committee, called for November 12, in Chicago, to select a successor to the late James S. Sherman as Republican candidate for vice-president, has been indefinitely postponed. It was learned that Chairman Hill, who issued the call on the night of Mr. Sherman's death sent telegrams today to all the members of the committee notifying them the meeting would not be held.

At Republican headquarters there was on explanation of the postponement.

Although the defeat of the party in the election makes the naming of a vice-presidential candidate a mere formality, it is expected the committee will select one at an early date.

VOTE IN CHICAGO.  
Chicago, Nov. 8.—With 110 precincts missing, Dunne's plurality is 118,617. The totals as far as heard from are: Dunne, 431,673; Deneen, 313,056; Funk, 299,329.

Head Lettuce, Radishes, Green (Endive) Chickory Leaf and Head Lettuce, Reddishes, Green Onions, Parsley, Cauliflowers, Cucumbers and all the rest.

### THE BELGIAN ENDIVE

Is perhaps the most healthful of vegetables. It is highly recommended by the best physicians as containing all the medicinal qualities of SPINACH, ASPARAGUS and CELERY.

This vegetable, which has become in recent years so popular in the United States, has so far been eaten only as a solid white that is only one of the many ways.

ENDIVE A LA CREME—Use the whole stalks, wash thoroughly with cold water, then plunge the stalks in boiling water and cook them about twenty minutes until quite tender; carefully drain and serve hot with cream butter or cream sauce as asparagus. Endive Saute au Jus. Endive and Cheese au Gratin. Imported, yet the price is within reach of all. Two stalks, 15 cents.

## Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our fabricated and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Bloating of food, Chronic Diarrhea and other Intestinal Derangements, this "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine or toxin compound, not even though the urgent dealer may thereby make a little larger profit.

Dr. Pierce's Pleasant Tablets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

## KEOKUK HIGH WILL COME TODAY

Iowa School Will Be Opponent of J. H. S. This Afternoon on Illinois Field—Illinois College Goes to Quincy.

Football fans will be given a chance to see another fast game this afternoon when the high school teams of Keokuk, Iowa and Jacksonville meet at 2:15 on Illinois field. The Jacksonville men who were crippled in the game at Champaign have recovered sufficiently to participate in the contest, excepting Captain Stewart, who will have to content himself by pulling for his teammates on the side-line. Coach Baland has perfected, during the past few days, several new plays which he expects to work on the Iowa lads and the locals are expected to register at least three touch downs on the husky players of Keokuk. Little is known of the visitors except that they have been putting in some hard ticks to win the contest. Keokuk has the reputation of being genuine sport and the high school bunch of that city is known for their grit and determination, so that the game this afternoon may be equal to that pulled off when Springfield was here. The men have to leave on the Washash 5:13 train so the game is called early on that account. Larson will referee the game.

The following line-up has been announced:

Right End—Johnson.

Right Tackle—Jackson.

Right Guard—Haigh.

Center—Hale.

Left Guard—Strawn.

Left Tackle—Hall.

Left End—Burdick.

Right Halfback—Cannon.

Left Halfback—Reeve.

Fullback—Reid.

Allout will be substitute guard.

Briscoe, guard, McGinnis, quarter; Kolp and Squires, halves.

Illinois to Quincy.

Coach Harmon will take his eleven football warriors to Quincy today where they will meet the eleven of the Gen. City Business college of that place. It will be a vengeance game that the Quincy men put up as Quincy wants to retrieve their big loss against Christian Brothers college a week ago. Quincy expects to have in all of their regular men except Left Halfback Robinson who is out on account of a sprained ankle. Quincy claims that their big defeat in St. Louis was due to the fact that over half of the first team men were not in the contest on account of missing a train and Coach Hall expects his men to put up a stiff game this afternoon at Baldwin Park.

Coach Harmon has been putting his men through a stiff daily practice, against the high school squad and the team from the state school for the Deaf. He has shifted some of the players and believes that the back field will now be stronger, and the whole squad strengthened.

REVIVAL STARTS SUNDAY.

The revival at Central Christian church will commence Sunday night. The pastor Rev. Clyde Darsie will be his own evangelist. The church now has a splendid choir under the leadership of J. Philip Read and the prospects are good for a splendid meeting. A new song book will be used and the meeting will run for an indefinite time.

GAVE SPLENDID ADDRESS.

Principal R. O. Stoops gave an address before the members of the G. A. R. in their hall Friday night on "The Battle of Gettysburg." Principal Stoops has collected some interesting data on the battle which turned the tide of the war for the union cause and those present heard the address with great profit and interest.

## PHYSICIAN ARRESTED WHEN ALLEGED VICTIM OF CRIMINAL OPERATION-DIES

Dr. F. W. Lanoix of Kansas City is Charged With Being Responsible for the Death of 19 Year Old Girl.

Kansas City, Mo., Nov. 8.—Dr. F. W. Lanoix was arrested here tonight charged with being responsible for the death of Mrs. Frances May Crowley, aged 19, and a bride of one week, who died in Kansas City, Kansas, last night, the alleged victim of a criminal operation. The physician's arrest followed the verdict of a coroner's jury in which he was charged with the crime.

Dr. Lanoix was awaiting trial on a charge of manslaughter and was at liberty on a \$5,000 bond when the new charge was preferred against him tonight. He was arrested in this city last February after Mrs. Mildred Putnam, of Quincy, Ill., died in a hospital here of which he was one of the proprietors under circumstances that aroused the suspicion of the police.

His trial on this charge is set for next Monday. The police here charge that the physician's real name is Jesse L. Martin, that he formerly was a drug clerk at Quincy, and assumed the name and certificate of a Dr. Lanoix who died in Quincy, several years ago.

When the physician's wife was divorced from him several months ago he contested the suit under the name of Martin.

## CALIFORNIA'S ELECTION VOTE STILL FAR FROM CERTAIN

Seventy-Nine Precincts Yet to Be Heard From—From Returns Now Reported Roosevelt Has Plurality of 751.

San Francisco, Nov. 8.—With 79 small precincts to hear from the vote of California on president follows:

Roosevelt	281,369
Wilson	280,618
Roosevelt's plurality	751

The totals were compiled today from official returns from the county seats. The 79 precincts remaining unreported are all in remote regions. It is probable that the vote of many of them will not be known before the official canvass.

Not all of the Roosevelt electors may have won. The name of Lieutenant Governor Wallace, which headed the Roosevelt electoral ticket, was scratched by many voters, presumably because of his course in commuting the death sentences of murderers while acting governor. In many instances it is stated Wallace's name was actually pencilled off the ballot. Attorney General Webb has rendered an opinion that such ballots were thereby invalidated.

Acting upon this opinion, the Democratic managers have announced that if the final returns leave Roosevelt still in the lead they will challenge the vote of Los Angeles county, where the Progressives rolled up their heaviest plurality and where Wallace ran behind the other Roosevelt electors.

The final disposition of California's thirteen electoral votes may be decided by the courts. Democratic managers in the announcement of their determination to challenge the Los Angeles county vote in the event of a Roosevelt victory on the informal count, said their action would be based not only on the alleged counting of Progressive ballots invalidated by pencil scratches, but on alleged errors and irregularities of Republican judges of election in excluding valid Democratic ballots.

## "PLEBES" AT WEST POINT.

The Upper Classmen Give Them Many Lessons in Humility.

Notwithstanding the efforts to suppress hazing, the path of a "plebe" at our famous military academy is not exactly rose strewn. W. S. Sample in Lippincott's gives an amusing and enlightening account of the experiences of one plebe.

"For the first ten days in camp," the author tells us, "plebes are made to walk with their little fingers on the seams of their trousers, patting the hands to the front and depressing their toes as they walk—that is, striking the ground with the toe of the shoe first. It is a very tiresome and ludicrous process and is called 'finning out.'"

"A plebe walking quietly down the company street is observed by some visitors, when suddenly he throws out his hands and digs in his toes."

"Oh, Cadet Beanpole, why is that cadet walking so queerly?" asks a pretty girl.

"That isn't a cadet; it's a plebe. He walks that way because he wants to be graceful."

"The true reason is that the poor plebe heard some upper classman say: 'Fin out there, mister; dig in those toes; tear up the gravel. What do you mean by deadbeating and going bow-legged?'"

"The cadets march to meals, to church, to swimming, to dancing, to everything. The plebes are placed in the rear rank of all formations."

"The first meal a plebe eats in the mess hall with the corps is never forgotten. Twelve cadets are seated at a table, at least three of whom are plebes. The cadet in charge of the table sits at the head, while a plebe called the 'gunner' sits at the foot. It is the duty of the gunner to call the table to attention each day and to announce the kind of dessert. As there is no bill of fare and the dessert is different every day, this is not always an easy job. If the gunner announces the dessert incorrectly, he is deprived of his portion."

"The plebe on the gunner's right is called the cocoa corporal and on the left the water corporal. It is the duty of the cocoa corporal to pour out the cocoa, and the water corporal pours the water."

"The cadets often have a fierce and wonderfully built jelly called 'Felix' trembled.' This concoction wobbles all over your plate and derives its name from a cadet named Felix, one of the oldest living graduates, who ate some of the mixture and trembled violently. Cadets who eat it have been trembling ever since. Molasses is called 'Sammy' by the upper classmen. Plebes are required to call it the 'Right Rev. Mr. Samuel, sir,' until they qualify, which is done by eating seven slices of bread and molasses, when they may call it 'Sammy.'"

"After finishing their meals, plebes are required to sit bolt upright and gaze fixedly at a potato stuck on matches in the center of the table. They are not allowed to feast their eyes upon the portraits of the great generals that decorate the walls of the mess hall, but must sit and 'brace' until the command, 'Battalions rise.' is given, when they fall in and march back to camp."

## The Drama of the Sunset.

We never tire of the drama of sunset. I go forth each afternoon and look into the west a quarter of an hour before sunset with fresh curiosity to see what new picture will be painted there, what new phenomenon exhibited, what new dissolving views. Every day a new picture is painted and framed, held up for half an hour in such lights as the great artist chooses and then withdrawn and the curtain falls. The sun goes down, long the afterglow gives light, the damask curtains glow along the western window, the first star is lit, and I go home.—From Theodore's "Winter."

## Bull Baiting in England.

In the old days of England bull baiting was as common as football. A remainder of this exists in the will of one George Staverton of Worthingham. He bequeathed out of his estate a sum of \$30 yearly with which to buy a bull for the baiting. The bull was to be given to the poor of Worthingham to be baited in the market place Dec. 21 of each year, the remains of the animal to be sold and the proceeds devoted to the purchase of shoes and stockings for the poor children. The will was carried out until 1825, when the corporation forbade any more such celebrations.

## Why Is It?

Here is a question in naval science which is to the average sailor man a riddle unsolved. Take a vessel of, say, 2,500 tons, place on it a cargo of 3,500 tons. This gives you a total of 6,000 tons. Hitch a little tug to this vessel, and she will yank the big craft along at the rate of six or eight knots an hour. Now put the tug's machinery in the big vessel. It won't move her half a knot an hour. Why is this?

## A Little Persuasion.

## EXPANSION OF INDUSTRY AND TRADE CONTINUES

### BOUYANCY IS INCREASED IN FINANCIAL MARKETS

With Balkan Situation Less Menacing and the Uncertainty of the Election Over the Outlook Is Improved.

New York, Nov. 8.—R. G. Dun & Company's Weekly Review of Trade tomorrow will say:

With the Balkan situation less menacing to world peace, though still serious, and with the uncertainties of the national election at an end, the outlook is improved. This is noted in the increased buoyancy of the financial markets and in the continued expansion of trade and industry. A situation that is based upon an unprecedented movement of wheat and a record breaking production of pig-iron can be described by no other word than prosperous. Every department of business experiences the uplift and expansion which result first, from the tremendous crops and second, from the restored confidence and credit.

Most of the current output of iron and steel is going directly into consumption and in many instances premiums are paid for prompt delivery. The shortage of cars constitutes a serious drawback, particularly in the coke regions, but labor conditions have improved. The demand for plates is brisk and a premium is offered for prompt shipments, the normal quotation being \$1.50; Pittsburgh for shapes and plates. There is a scarcity of fabricated steel while sheeting tin mills have been hindered by a lack of sheet bars and the supply of billets is up to the demand. Therefore contracts have been placed for line-pipe and practically all finished departments are active with prices firm. The dry-goods trade both in cottons and woolsens is active and strong. The shoe trade also is active.

Bradstreets Will Say.

New York, Nov. 8.—Bradstreets tomorrow will say: The presidential election has come and gone with the barest possible apparent effect upon trade and industry. Neither the election itself nor its results, sweeping as they were, have thus far changed the optimistic undertone previously characterizing trade sentiment, the situation in this respect presenting one of the most notable economic phenomena of recent times. In short, natural conditions coincident with heavy crop yields and consequent heavy consumptive requirements continue predominant in trade and industrial circles. Buying is large and in lines that may in the long run feel the effects of prospective tariff revisions, business continues heavy with no talk of cancellations.

Trade in staple lines is active with calls for immediate shipment a feature, while operations for forward delivery are enlarging. At the same time, demand for holiday goods is increasing and in the dry-goods lines re-orders for novelties suitable for the forthcoming festive season are of a good proportion. Incidentally most industries report well filled order books which insures a comparatively long spell of active operations. Conspicuous in this respect are iron and steel plants, flour mills, furniture factories and lumber mills. Two essentials are coal and groceries, are in brisk demand, with such useful commodities as dry-goods, hats and caps, shoes and clothing are being taken in volume, not only for present, but for future requirements as well.

All but a very few sections contribute favorable reports. Business failures in the United States for the week ending Nov. 7, were 249, against 257 last week; 237 in the like week of 1911; 207 in 1910; 221 in 1909 and 267 in 1908.

## AMATEUR ATHLETICS ARE DESCRIBED

President James of the University of Illinois Gives Views on Subject.

President James of the University of Illinois gives the following statement on amateur athletics:

A statement of the attitude of the University of Illinois on amateur athletics has been published by the university and issued by President James.

Inasmuch as certain difficulties have arisen in the administration of intercollegiate athletics on account of the differences of opinion concerning alleged violations of the rule defining amateur sport, it seems desirable to consider the whole question of amateurism as at present defined, with a view to ascertaining whether the present definition involves unnecessary technicalities that produce hardship in some innocent cases.

The difficulties in question have arisen partly because of differences of opinion as to what constitutes amateurism, and also because under the present practice the same rule is interpreted and administered by nine different bodies, namely the independent members of the conference. It cannot be expected that uniformity of interpretation will be secured under such a practice.

Cites Other Examples.

"The question of what is the essence of amateurism in sport is one answer to which are conflicting and confusing, both so far as they are answers of different people with reference to a single sport and also so far as they are answers to the question with reference to different sports. Our intercollegiate conference has made the receipt of money as pay for playing, or as prize money, whether received by the player himself or by one of a team on which he has played, the essence of the distinction between amateurism and professionalism; but an examination of sporting practice shows that the receipt of money is not the test accepted for all sports. There is an attempt on the part of some people to depreciate the college student who participates in a sport for pay, or for a prize. But a member of the U. S. Golf association may be an amateur, and, although he may not receive money, he may accept 'plate' equal in value.

"In the English Cricket association men are allowed to draw pay as club officials and also to compete with professionals, while still retaining their amateur standing. A member of the American Bowling congress is duly qualified if he is a member.

"From these illustrations it is clear that the receipt of money is not of itself accepted in practice as a universal or sufficient test of the distinction between an amateur and a professional.

"At bottom amateurism is a question of spirit in which sport is entered upon. It refers fundamentally to the players' state of mind or heart. For that reason it is very difficult to set up an amateur standard of determination. To do so is to try to find an objective expression for a subjective condition, and that is usually impossible unless the condition and the object of expression is uniformly present.

Motive Is Defined.

"It is impossible, therefore, to say that the sporting spirit and motive are proved to be absent in a player if he receives money, and yet the receipt of money by a player makes it difficult to say whether his motive in playing is that of an amateur or of a professional. The receipt of money being the primary motive of the latter. Moreover, the receipt of money even with the best of motives and under the most favorable circumstances is likely to lead to conditions in which the motive of play is the desire of gain rather than love of the sport.

Experience shows that an attempt to enforce amateurism on the

basis of a receipt-of-money test leads to prevarication by students, and is practically impossible to enforce. It is our opinion that under the present rule no college in the conference has had an amateur baseball team for years, and that the teams of the present season are not amateur according to the present rule. It is our belief, moreover, that the rule which leaves the determination of amateur standing to the institution in which the players themselves are concerned leads to difference of standards, and of strictness in enforcing the rules."

## RINGWORM IN RED SPOTS ON FACE

Rough Crust on Top. Continually Worse. Spread Over Face and Legs. Terrible Itching and Burning. Cuticura Soap and Ointment Cured Completely.

Stratford, Iowa.—"Three years ago this winter my seven year old son had ringworm on the face. First it was in small red spots which had a rough crust on top. When they started they looked like little red dots and then they got bigger, about the size of a bird's egg. They had a white rough ring around them, and grew continually worse and soon spread over his face and legs. The child suffered terrible itching and burning, so that he could not sleep nights. He scratched them and they looked fearful. He was cross when he had them. We used several bottles of liniment, but nothing helped. I saw where a child had a rash on the face and was cured by Cuticura Soap and Ointment and I decided to use them. I used Cuticura Soap and Ointment about one month, and they cured my child completely. I cannot be thankful enough for it is terrible if a child's face is all broken out as ours was." (Signed) Mrs. Barbara Prim, Jan. 30, 1912.

Cuticura Soap is best for skin and hair because of its extreme purity, delicate yet effective medication, and refreshing fragrance. It wears to a water and gives comfort and satisfaction every moment of its use, for toilet, wash and nursery. Cuticura Soap and Ointment are sold everywhere. Sample of each free with 32-p. Skin Book. ### THE EFFICIENT WOMAN.

(An article by a student in the home economics department of Illinois Woman's college, Miss L. H. Gilbert, director.)

Health is the essential for the efficiency of an individual and the demands of today are for efficiency in all lines of work. Pure air, and pure water are necessary for health, although if a proper attitude and a clean environment are not also considered, efficiency can never be obtained. Women are considering the problem and realizing that efficiency in the home is of quite as much importance to society, as to a skilled workman in any trade. Since efficiency demands pure food the source of these materials must be duly considered.

Under the factories in which foods are prepared for markets, not only the purest of materials must be used but the conditions under which they are prepared must be sanitary. The pure food laws furnish information concerning the purity of goods and have served to protect the public from much fraud. There are few women who have failed to notice the guarantee of purity on canned or preserving goods and felt a sense of security in using food guaranteed under the pure food law. Although the manufacturer may do much in supplying pure food, without sanitary retail shops the food when delivered to the housekeeper is no longer pure. In some cities and towns there are laws governing the retail shops as well, but in places where there are no such laws the women of the community may create proper conditions by demanding them. It is the desire of every shopkeeper to please his customers so if they become dissatisfied with his manner of handling goods he will try to remove the cause. It is therefore the duty of every woman to demand cleanliness in the stores she patronizes and if there is a failure to respond, to change her trade to a shop which is striving toward sanitation. Supposing the food to be pure upon entering the home, by poor cooking and care in the home, all that has been gained by obedience to the laws may be lost. The cooking of food so as to make it palatable and digestible is an equally important factor in preserving health. An instinct for the proper requirements of the body formerly directed people in preparing foods but that instinct has been so abused that science has come to take its place. Thus the application of science to cooking has become of greatest importance in making it possible to understand and properly supply the needed food, in proper proportion for the greatest efficiency of the body.

Without plenty of fresh air the desirable effects of pure food cannot be realized. Although the outside air may be clean and fresh, the atmosphere within the dwelling may be extremely impure. A definite amount of fresh air—2000 cubic feet—is required by the body every hour and should be furnished by changing the air of the room. Listlessness and sleepiness are more often due to impure air than to over exertion. Poor plumbing is sometimes the cause of the escape into the house of poisonous gas and it is well for the housekeeper to understand the simple facts of plumbing in order to detect any deficiency of this kind. Plenty of exercise in the fresh air and well ventilated sleeping rooms are not fads of the day but are founded upon actual needs of the body.

The consideration of next importance is the water supply; its purity, and freedom from contamination. Epidemics of typhoid fever and dysentery have been traced to impure water supply. The body demands a large amount of water and it should be as pure as possible. The boiling of water will kill disease germs if they are present and is a wise precaution to observe.

After the building up of a sound body has been accomplished by pure food, air and water it is folly indeed to destroy this work by bodily exertion which accomplishes no results. The mind should be used to save the body. Using a pan which is too small for the substance to be cooked in it is a common example of the use of unnecessary labor. The food boils over, then the stove is to be cleaned, the food changed to another pan and the one used first is to be washed. Planning the household work and carrying out the plans systematically accomplishes the work in less time and with the saving of unnecessary steps.

Being healthy and eliminating useless labor by using forthrightly should make women better able to enjoy broader interests. It is for the woman to make the spirit of the home; her moods are reflected by all in the house. Thus she should by her cheerfulness and interest in all of the larger interest about her make the home the center of wholesome influence which in turn will reflect upon the community in which she lives.

Bess Goltz.

## GAVE ADDRESS ON BOY PROBLEM

REV. CLYDE DARSIE SPEAKS IN  
HIGH SCHOOL AUDITORIUM.

Presents Timely and Valuable Suggestions Before Meeting of Union Parent-Teachers' Association—Short Program Precedes Address.

A splendid meeting of the Union-Parent Teachers' association was held in the auditorium of the high school Friday afternoon. There was a large attendance and the principal speaker of the afternoon was Rev. Clyde Darsie, pastor of the Central Christian church, who spoke on "The Problem of the Boy." The program, in charge of Mrs. J. T. Darskin, was opened with an instrumental solo by Miss Edith Hillerly, followed with a vocal selection by Miss Fay Mitchell. After the readings of the last meeting by the secretary, Mrs. E. J. Howells announced that there would be a parent-teachers' meeting in the first ward next Wednesday afternoon. Mrs. L. A. Adams also announced that the Christian church expected soon to give a service over to the interest of the tuberculosis cause, and the pastor would preach a sermon especially adapted to the subject.

**Resolutions of Regret.**  
The following resolutions were presented by Mrs. Williamson and passed:

"The Parent-Teacher association of Jacksonville express the deep sense of regret which all must feel over the departure of Principal R. O. Stoops. In Mr. Stoops we parents have found a friend and co-laborer in the moral as well as the mental training of the young people of the city. His high character has furnished a splendid example to the young people in the high school and his deep sympathy and wise counsel have been of inestimable value, both to parents and pupils.

"While we deplore our loss, we congratulate Mr. Stoops on the promotion he has received and join in wishing him and Mrs. Stoops a happy and useful life in their new home."

**Address by Rev. C. L. Darsie.**  
The chairman next introduced Rev. Mr. Darsie who gave one of the best addresses ever delivered before the association.

In part he said: "The problem of the boy is a big problem and I haven't mastered it. The man who says he has mastered it, is usually more presumptuous than wise. But in order to understand the boy, I may be well to analyze his world. A boy is neither a child nor a young man. Mr. Carman of Colorado says that the boys' world is made up of 50 per cent fun, 20 per cent fight, 20 per cent investigation, 5 per cent work and 5 per cent religion. Let us use this for our purposes this afternoon. By another analysis, a boy is a 100 per cent boy."

**Physical Side.**  
The 50 per cent fun is physical. He is growing, he is in the same stage of his growth that the savage was, when he fought in the forest and breaking a branch from a tree, brains his enemy. Do you expect this boy, living in this stage to be satisfied with ping-pong or tiddie-de-wink. A dude cannot lead him, but he will follow a fire engine all over town. This activity needs to be used in the home, the public school and the church. It is a positive not a degenerative quality. I heard once of a boy whose name was Johnnie Don't, because his mother was always saying to him, "Please Johnnie don't do that." This boy needs a task before him that will be wholesome instead of continual prohibition.

**Desire to Fight.**  
The second part of our analysis is 20 per cent of fight. This is the spirit of conquest in him. Later on it will develop into a determination to win. If we teach our boys that they are never to fight, not even for the right, where are we to get our reformers, in the years to come. Personally I think that a boy should be taught to stand up in defense of a girl, and for his own rights. I do not believe that he should be taught to be a bully but the probability is if he does not stand up for his own rights, nobody else will. A dare stir him to the very bottom of his soul. If you say "dassent" you can make him jump off the barn. If there is one thing he dislikes, it is a "sissy."

**Investigation Element.**  
The third element is investigation. This is the motive that makes him tear up his books to see how they are made, and open the back of a watch to see the wheels go round. It is a fine faculty rightly used by a skillful teacher or parent, it furnishes the incentive to the study of the sciences, and all the arts of life.

**Quality of Work.**  
The next quality is work. Up to this time the boy has been a part of the community with no real sense of private ownership. He needs to learn the work and to know that he has earned his personal belongings. Has he ever stolen? It is because everything in the home has been used for his benefit. He eats from the family larder, his medicine when he is sick comes from the family medicine chest. His wants are provided for from out the family purse. What is more natural than that when he wants something badly he should go to the common purse for money to buy it. Just now he needs not so much severe reproof as to be taught the rights of personal property and he can learn this in no way quite so effectively as by earning his own belongings. He must work all through his life, even in these degenerate days, there is so little work that a boy can do in the home, he should be found doing some task the wages for doing which, shall provide him the things which he wants.

**Religious Nature.**  
And lastly, he has an intense religious nature. This religion does

not manifest itself in his life as it does in the life of a man or a woman, but he has a keen sense of honor and the first command in his decalogue is this: "Thou shalt not snitch." When forced to tell on his playmates, he feels disgraced. He has done something that his conscience tells him is wrong. How can you expect him to live up to a high standard of honor in later years if you compel him now to violate every sense of right in his makeup. Personally I believe it would be better to let ten offenses go unpunished, rather than to make a boy play the detective on his companion once.

**The Personal Touch.**  
And now a few suggestions, to persons dealing with boys. The first is this, make his surroundings agreeable. I have heard of a church in Wilmington, Ohio, that has inscribed over the door "How dreadful is this place—this is none other than the house of God," and many a church house is all of that to the boys who enter. The pews are stiff and uncomfortable, the lines unattractive, the preacher is prosy and the music is slow. To have to sit in comparative quiet and half service to him, I believe our churches should be made as attractive as possible to boy life. I believe Sunday should be made more attractive than it has often been made. The customs of our fathers have often made it an irksome day. I don't think Sunday should be the same as other days; there should be different occupations and amusements, but they should be such as a boy can enjoy. The average home puts the boy in the back room, with the oldest suite of bed room furniture in the house on the principal that he will break up anything that is put there. A few years later, his parents would give their right arm to keep him at home. Why not start now by giving him a room that shall be as cheering as any room in the house, even if he is a little destructive at times.

**Give Boy Ideal.**  
Another suggestion, give him an ideal. Every boy already has one. The best ideal for any boy is a clean upright father, too often a boy never sees his father except at meal time or when he has been called into account for some irregularity in conduct. And many a father deals with a boy according to Josh Billings' opinion of a mule, when he said "A mule has no disease, a club won't cure."

One of the most pathetic things in American life is our fathers do not give the time necessary to know their boys and how shall we learn by remembering how they felt and acted at a like age. The mothers may learn them by watching them at their play and daily occupation. The literature of the boy world is growing splendidly in these latter days. Patience, hard work, love and common sense will go a long way toward solving the problem, the biggest problem before our American people today. May we not depend upon it that the influence of the home, the public school and the church may be thrown helpfully around these future citizens of ours.

### SPECIAL ASSESSMENT NOTICE.

**"TELLS THE WHOLE STORY."**  
To say that Foley's Honey and Tar Compound is best for children and grown persons and contains no opiates tells only part of the tale. The whole story is that it is the best medicine for coughs, colds, croup, bronchitis and other affections of the throat, chest and lungs. Stops the agonizing coughs and has a healing and soothing effect. Remember the name, Foley's Honey and Tar Compound, accept no substitutes. City Drug Store, J. A. Obermeyer.

**Arm Broken.**  
During the basketball game played at Manchester, Carl Brown, one of the boys in the team had the misfortune to fall and break his left arm above the wrist. The game was ended at once and medical attendance rendered to Carl. Considerable excitement prevailed and much gloom was cast over the crowd. Carl was removed to his home and is doing as well as could be expected.

## ESTABLISHED 16 YEARS

On the day that William McKinley was elected president of the United States, The Johnston Agency was opened in the Duncan Bldg. It remained there 11 years, and has now been 5 years in the Courier Bldg. During these 16 years we have loaned approximately two million dollars of Morgan county money on Morgan county land and Jacksonville residence property. During all that time the only property the lenders have had to take under mortgage was one the owner of which had died. We respectfully solicit the placing of your loans, the selling of your real estate and the writing of your fire and tornado insurance business.

## Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasping of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after baby comes. Mother's Friend is for sale at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

## NOVEMBER CROP REPORT OF THE DEPARTMENT OF AGRICULTURE

### INFORMATION CONCERNING THE GREATEST CROP OF CORN WORLD HAS EVER KNOWN IS GIVEN OUT

**Total Estimated Corn Production Reaches 3,169,137,000 Bushels Compared to 2,927,416,000, the Record Crop of 1906--Preliminary Estimates of Buckwheat, Potatoes and Tobacco Production**

Washington, Nov. 8.—A corn crop of 3,169,137,000 bushels, or 281,921,000 bushels more than the greatest crop of corn ever grown in any country of the world, is the feature of the country's most remarkable agricultural year in history, according to the November crop report of the United States department of agriculture issued today. The report completed the government's preliminary estimates of the nation's principal farm crops. This great crop of corn was worth on Nov. 1st to farmers \$1,850,776,000. The enormous sum of \$4,171,134,000 represented the farm value on Nov. 1st, of the United States crops of corn, hay, wheat, oats, potatoes, barley, flaxseed, rye and buckwheat. With the value of the growing cotton crop and the crops of tobacco, rice and apples, the aggregate value of these principal farm products will amount well beyond \$5,000,000,000. Upon the preliminary estimates of production and prices announced today the value of the crops figure out as follows:

Corn	\$1,850,776,000
Hay	854,615,000
Wheat	603,639,000
Oats	476,169,000
Potatoes	188,501,000
Barley	120,845,000
Flaxseed	39,693,000
Rye	24,370,000
Buckwheat	12,526,000

There was an increase in the total value of each of these crops, excepting buckwheat, potatoes, barley and rye. The increase netted \$515,057,000 over the value of last year's crop.

Record crops of corn, potatoes, flaxseed, oats, barley, rye and hay were harvested this year. The government's official estimates of the value of the various crop and its final estimates of total production will be announced in December.

The yield per acre and production of corn, potatoes and tobacco in states named follow:

State	Corn Yield	Production
Illinois	40.2	428,452,000
Iowa	48.0	432,021,000
Kansas	23.5	200,361,000
Missouri	32.0	243,904,000
Nebraska	25.0	189,350,000
Indiana	40.5	200,354,000
Ohio	42.8	175,266,000
South Dakota	30.6	76,347,000
Minnesota	37.5	84,975,000
Wisconsin	35.7	58,262,000
Michigan	34.6	56,121,000

More definite information as to the size of the greatest crop of corn the world ever has known was given today when the crop reporting board of the United States department of agriculture issued its preliminary estimate of the country's total production in the November crop report. Heretofore the estimates of the corn crop have been based upon condition reports. The November report made up from reports of agents and correspondents of the department's bureau of statistics and issued at 2:15 p. m., announced also the preliminary estimate of the total production of corn, potatoes, flaxseed and tobacco; the yield per acre of each; the average farm prices on November 1 of the country's principal crops, and the amount of corn of the 1911 crop remaining on farms November 1.

Corn—Total production, preliminarily estimated, 3,169,137,000 bushels, compared with 2,513,488,000 bushels last year, and the record crop of 2,927,416,000 bushels in 1906. ## LADIES' SEWING CIRCLE.

The Ladies' Sewing society of the First Baptist church held their 29th annual meeting all day yesterday in the parlors of the church. Twenty-five members were present for dinner and among the guests were Rev. W. L. Dorgan and wife. The ladies quitted all day. The business meeting was held from 3 to 4 o'clock. A very enjoyable and profitable time was spent.

The following officers were elected:  
President, Miss Elizabeth Williamson.  
First vice-president, Mrs. Yates.  
Second vice-president, Mrs. W. T. Spires.  
Secretary, Mrs. A. E. Goltra.  
Treasurer, Mrs. French.

## END LIVER TROUBLE WITHOUT CALOMEL.

Untrustworthy Drug, Thought to Loosen the Teeth, Now Made Absolutely Unnecessary.

Dr. Edwards' Olive Tablets—the substitute for calomel—are the mildest but surest laxative known, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. Dr. Edwards has been calomel's uncompromising foe. His efforts to banish it brought out these little olive-oil-colored tablets, a rare combination of vegetable compounds mixed with olive oil. These pleasant, harmless little tablets do all the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel at all, but to let Olive Tablets take their place.

Most "headaches," "dullness" and that lazy feeling come from constipation and a disordered liver. Take Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" the clouded brain and how they

"perk up" the spirits.  
At 10c and 25c a box. "Every little Olive Tablet has a movement all its own."

Mrs. Emma Maier, 627 N. 7th St., Springfield, Ill., says her kidney trouble resulted from an operation: "From then until I used Foley Kidney Pills I did not know what a well day was. Then my backache left me, that tired dragged down feeling was gone, I slept soundly and awoke refreshed. I had no more headache or dizzy spells." Safe and sure. Try them. City Drug Store, J. A. Obermeyer.

## ADMINISTRATOR'S SALE OF REAL ESTATE.

Estate of Joseph Kilian, deceased.  
Public notice is hereby given that by virtue of the order of the County court of Morgan County, Illinois, in the case of the petition of Mary Fitzpatrick Kilian, administratrix of the estate of Joseph Kilian, deceased, vs. George D. Kilian, et al, entered at the November term of said court, I will on Saturday, December 8, A. D. 1912, at 2 o'clock p. m., at the south door of the court house in Jacksonville, in said county and state, sell at public auction the following described real estate, to-wit:  
Lot one hundred and twenty-eight (128) in the original plat of the town, now city, of Jacksonville, Morgan county, state of Illinois, for cash.

There is a mortgage on the premises which is to be released as a part of the transaction. The mortgagee states that he will be willing to reloan the money on the premises.  
MARY FITZPATRICK KILIAN, Administratrix of the Estate of Joseph Kilian, deceased.

## NO MORE FUEL OIL.

The Standard Oil Company will sell no more fuel oil after Dec. 1, the high price of gasoline having made it more valuable for refining. Manufacturers that have been using crude oil in their furnaces will be forced to go to enormous expense in changing their equipment and methods. The International Harvester company has annually consumed 8,000,000 barrels of fuel oil. The phenomenal increase in consumption of gasoline for propelling automobiles and other machinery is given as the cause for abandoning the fuel oil branch of the Standard Oil's business. It is predicted that a general advance in the price of Obermeyer.

steel castings will result, probably ranging from \$19 to \$15 a ton. Other manufacturing interests are also pretty sure to be affected, forcing higher prices for their products.—Ex.

Mrs. Peter Holan, 11501 Buckeye Road, S. E., Cleveland, O., had a little son with a bad case of whooping cough. She says: "He coughed until he was blue in the face. I gave him Foley's Honey and Tar Compound, and the first few doses had a remarkable and almost immediate effect. A few more doses cured him. Yes indeed I can recommend Foley's Honey and Tar Compound." In the yellow package. City Drug Store, J. A. Obermeyer.

## MORTUARY

**Farmer.**  
The funeral of John Farmer was held at Berea church Friday morning at 11 o'clock in charge of Rev. G. U. Cantrell, of Indiana, assisted by Rev. Mr. Shaw, pastor of Berea church. There was a large gathering of relatives and friends to attend the services and music for the occasion was furnished by the choir from Hebron church. The many beautiful flowers were cared for by Mrs. Jack Stewart, Mrs. Lawrence, Mrs. Frank Hynes and Mrs. Beilschmidt.

Interment was made in the Berea cemetery and the bearers were: Andy McNeal, Mr. Beilschmidt, Will Hooper, Frank Hynes, Jack Stewart and Carl Hanneke.

**Penfield.**  
Funeral services for Mrs. L. R. Penfield were held Friday afternoon at 2 o'clock from the residence, 139 Diamond Court, in the presence of a large assemblage of relatives and friends. The services were conducted by Dr. R. O. Post, pastor of the Congregational church of which Mrs. Penfield had been a devout member. Miss Matthews sang with much feeling, "Face to Face," and the flowers which were many and beautiful, were in charge of Mrs. R. W. Woolston, Miss Georgia Fairbank and Miss Asbell.

Interment was made in Diamond Grove cemetery and the bearers were: Richard Joy, J. P. Lippincott, J. W. Waller, R. W. Woolston, Dr. A. L. Adams and B. W. Smith.

**Moore.**  
Mrs. Margaret Moore, widow of the late Stephen Moore died Friday morning at 10 o'clock at the family residence in Winchester. She had been ill for over a year and a week ago suffered a stroke of paralysis which hastened her death.

Mrs. Moore was born in Ireland, 76 years ago and was married to Stephen Moore who passed away four years ago. After the death of her husband she moved from the farm near Alsey to Winchester and made her home with her niece Minnie German.

She is survived by one brother, Patrick O'Donnell and a sister, Mrs. Mary McCassey, both of Winchester. J. H. O'Donnell of this city is a nephew of the deceased.

The funeral services will be conducted at 10 o'clock Sunday morning from the St. Mark's church in Winchester cemetery.

**Reuter.**  
Mrs. C. I. Glenn of Franklin received a message Friday announcing the death of H. M. Reuter, who passed away suddenly at Nashville, Ill., Thursday afternoon while superintending the erection of a monument in the Odd Fellows' cemetery. The deceased is the father-in-law of Mrs. Glenn's daughter, Mrs. F. W. Reuter, of St. Louis.

Mr. Reuter was 70 years of age and was a member of the 62nd Missouri regiment during the Civil War. He was a prisoner in Andersonville prison and has served as county clerk of Washington county seven terms, or 28 years. By trade, Mr. Reuter was a monument cutter and it was while superintending the erection of a monument that he fell dead. He is survived by his wife, two sons, Dr. J. E. Reuter and W. F. Reuter, post office inspector, both of St. Louis; one daughter, Mrs. Elmer Ayers; two brothers, E. L. Reuter, commander of the Nashville G. A. R. post, and Rev. William Reuter of Florida.

**CORYDON PHILANTHROPIST.**  
Corydon, Ia., Nov. 8.—Corydon received a gift of \$165,000 today when the will of A. Walden, for years president of one of the banks here, was probated.

Mrs. Walden specifies that \$100,000 be used in the extension of water, sewer and light service in the city; \$35,000 in the purchase of a public park and \$20,000 in the erection of an orphan home.

## CONFESSED SLAYER SCORNS RICHES

DECLARES THAT SHE DOESN'T NEED MONEY.

Mrs. Lesh Will Be Brought to Missouri by Pettis County Sheriff—Louis Luttrell, an Uncle, Will Go to Sedalia to Identify Her.

When informed of the fact that she has a share in a \$75,000 estate left by her grandfather, Mrs. Pansy Hastings Lesh, who confessed to Los Angeles authorities that she poisoned two Missouri women, said: "I don't need the money." This was the only comment Mrs. Lesh would make and she told the officers that she had known of her relationship to the Luttrells, but that she did not expect to share in the estate.

Mrs. Lesh is one of the most remarkable prisoners ever held in Los Angeles. She was not believed at first when, holding her young son by the hand, she walked into the jail and calmly told of murdering two women. She said religion caused her to confess.

For a time it was thought she might go free, as the officials in Missouri were slow to believe that the two deaths were caused by other than natural causes. No suspicion had attached itself to the woman. The deaths occurred several years ago. It was thought that a person who confessed to being a poisoner must be insane, as long as there never had been a charge of that kind made. Only after alienists in Los Angeles insisted that Mrs. Lesh was sane was there action taken in the state where the crimes were committed.

Finally the woman convinced the authorities that she was guilty and Sheriff Henderson of Pettis county, Missouri, wired that he would go west for her. Even then warrants were not taken out for Mrs. Lesh until Thursday at Sedalia, Mo.

Mrs. Lesh has come to be known to the police in Los Angeles as the "mysterious poisoner." She denied a new charge brought against her to the effect that she attempted to poison the infant son of Paul Bauer, a prominent man of St. Louis. The basis of this charge was facts unearthed by the St. Louis police.

"I'm guilty of poisoning two women," sobbed Mrs. Lesh, whose wonderful fortitude has seldom been broken, "but I swear before my Maker, love for whom caused me to give myself up, that I never attempted to poison the child. It is true that I was accused of the crime, but I was freed."

Louis Luttrell of Franklin, a brother of Mrs. Lesh's mother, will go to Sedalia when the woman is returned there in order to identify her and see whether or not she is the legal heir to the estate left by the late W. T. Luttrell.

## NOTES FROM THE LABOR WORLD.

Toronto, Ont., furriers will organize.

The British Columbia Federation of Labor has a membership somewhat more than sixteen thousand. Societies affiliated with the British Federation of Trade Unions have hundred thousand members.

There is a proposal on foot to provide cottage dwellings for workmen of the tramway department of Glasgow, Scotland.

At the structures erected by the Panama-Pacific international exposition will be built strictly under union conditions.

Spanish railways whose employees are on strike are willing to grant the men's demands if the government will grant a subsidy or permit an increase in freight rates.

The largest trade union in the world composed entirely of women is said to be the Cotton Operatives' union of Lancashire, England, which boasts of a membership of 20,000.

A vigorous policy of agitation for state ownership of British mines was announced by President Robert Smille at the annual meeting of the Miners' Federation of the United Kingdom.

After an exhaustive investigation the United States labor bureau has concluded that \$500 a year is the lowest wage on which an American workman can support a family and maintain his efficiency as a worker.

Statistical reports show that during the last year the cases of sickness and accidents caused by the nature of the employment of workmen in the United States totaled 13,400,000, entailing a wage loss of \$306,000,000.

Whereas the average weekly consumption of bread among the working classes of America is eight and a quarter pounds a family, the figure for the same class a family in the United Kingdom is nearly three times as large.

The Massachusetts Federation of Labor has passed a resolution demanding that the legislature pass a bill calling for a Saturday half holiday without loss of pay the year round for all laborers and mechanics in the employ of the commonwealth.

In 1837 there were 826 labor unions, with one hundred and twenty-five thousand members in the state of New York; now there are 2,454 unions, with a total membership of 497,665. Of the 2,454 unions 709 are in New York city, and have a membership of 348,569.

The government has decided to establish at Arsenal Park, Pittsburgh, Pa., a miners' health and sanitation bureau. A study of the diseases peculiar to miners and an investigation of working conditions with a view to remedial reforms is the purpose of the new bureau, which will be of importance to the welfare of 750,000 men endangered in coal digging in the United States. Surveys of mines and investigation of mining conditions will be made part of the work of the bureau.

## NEW SCHEDULE MAKES SEVERAL CHANGES

Chicago & Alton Officials Issue New Card Which is Effective Sunday—Time of Several Trains Changed.

Officials of the Chicago & Alton have issued a new time card, called No. 15, which is to go into effect at 12:05 p. m., Sunday, November 10, and according to it several important changes in the time of trains will be made.

During the time that the present schedule of trains has been in effect patrons of the road from this division were obliged to wait some time in San Jose in order to go to Peoria but according to the new schedule direct connection will be made at San Jose for Peoria. No. 70 north bound, which is now in this city at 6 a. m., will arrive here at 6:28 a. m. and No. 15, south bound, arriving here at 10:21 a. m., will reach this city at 9:40 a. m. North bound passenger No. 32, now due in this city at 12:05 p. m. will arrive at 11:15 a. m. and remain here until 12:45, and south bound passenger No. 71, due here at 11:15 p. m., will arrive at 10:40 p. m.

Changes will also be made in the fast freight service in this city. No. 88 will be routed over the Murrayville cut-off, and No. 82 will be routed through this city, arriving here at 4:15 p. m. No. 83, south bound fast freight will also be routed over the Murrayville cut-off, and it will be replaced by No. 81 which will arrive in this city at 7:45 a. m.

Aside from these two freight trains being routed over the Murrayville line the new card calls for two new passenger trains there. No. 34, will leave Murrayville at 10:45 a. m., and reach Springfield at 11:38 a. m., and returning will leave Springfield at 3:15 p. m. arriving at Murrayville at 5:23 p. m. This will give patrons who wish to go to Springfield an opportunity to go by leaving this city at 9:40 a. m. and returning at 5:23 p. m.

# "BUCKS" HOT BLAST

☐ The heaters that produce more heat for less money than any stoves in the world.

☐ There is no ordinary heater in the country that will successfully burn every fuel.

☐ It takes more than ordinary stove construction to burn soft coal, including slack.

☐ Soft coal is about one-half gas, and the ordinary stove that is supposed to burn successfully soft coal taking COLD AIR into its fire pot does not burn the gas. It goes up the chimney as waste fuel.

☐ Experiment has proven, however, that HEATED AIR taken into its fire pot forms perfect combustion, burns this gas, cokes coal and thereby consumes all the heat producing material in soft coal, burning it into heat units.

☐ "Bucks" Hot Blast Heater has a specially constructed fire pot that successfully burns all fuels, including slack.

☐ The air is drawn into the fire pot through a heated duct which completely encircles it; this heated air is fed to the top of fuel surface, thereby consuming all gases.

☐ Combustion takes place in a complete circle against the fire pot, highly heating the ENTIRE RADIATING SURFACE.

☐ With "Buck" Hot Blast Heater you derive Base Burner results.

☐ A highly heated base, surface that is ALL radiating surface and no waste fuel.
